Project Description

According to bank documents, the overarching Objective of the DPF series is to improve financial inclusion, digital entrepreneurship and access to digital infrastructure and services for individuals and businesses and strengthen resilience of households and firms.

This programmatic DPF series supports Morocco's recovery plan and longstanding structural reform agenda in financial and digital inclusion in line with the NDM. The reforms supported promote a more resilient economy and more inclusive private sector growth by increasing access to finance by start-ups, MSMEs, and youth-led enterprises and providing vulnerable households with access to insurance, including health insurance. Digital broadband infrastructure will allow households to access digital services, new business models to emerge, and the digitalization of administrative processes that will help the government and businesses improve the quality of services provided. The digitization of government procurement and payments, the issuance of a digital ID, and the strengthening of cybersecurity supported by this DPF series will facilitate the use of cashless payments and the extensions of social programs.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
