## **Project Description**

To facilitate a more resilient private sector economic recovery and enable a more fiscally and environmentally sustainable recovery.

#### **Key Results**

The policies supported are expected to support reforms aimed at removing bottlenecks to firms' growth, reducing regulatory costs, and facilitating entry and operation. They also aim greater transparency and accountability in budget policies in relation to climate change.

#### Concept Description

The proposed operation aims to support a stronger rebound of economic activities led by the private sector and a stronger, more resilient and sustainable recovery. These includes measures aimed at reducing the regulatory costs for businesses and increasing competition, efforts to expand credit to MSMEs, and a methodology to tag budget expenditures in relation to climate change.
