Project Description

To reduce flood risks and improve the living conditions in selected areas of Ribeirão Isidoro water basin in Belo Horizonte.

Vilarinho streams with urban upgrading in the Izidora region. It is supposed to: (i) mitigate flood risks in consolidated areas of Ribeirão Isidoro water basin through the construction of new reservoirs and enlargement of existing underground reservoirs to temporary retain water, as well as implementation of green interventions, such as multifunctional urban parks to increase infiltration and serve as public amenities; (ii) address uncontrolled expansion over environmentally sensitive areas; and (iii) improve the living conditions of the poor and vulnerable population in selected consolidated settlements in the Izidora region, while assuring full integration of public services and designs that reduce flood risks to an acceptable level.

Investment Description

- World Bank (WB)

Contact Information

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
