Status	Approved
Bank Risk Rating	A
Voting Date	2020-11-29
Borrower	Government of Djibouti
Sectors	Education and Health, Humanitarian Response
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.94 million
Project Cost (USD)	$ 0.94 million

Project Description

To prevent, detect and respond to the threat posed by COVID-19 and strengthen national systems for public health preparedness.

The proposed AF will build on the parent project's design and scale up the World Bank's support to the government's efforts to respond to the COVID-19 crisis. Specifically, the proposed AF will finance the procurement of key medical equipment, laboratories test kits, and medical supplies.

1. Component 1: Emergency COVID-19 Response (US$2.4 million IDA credit and US$378,857.14 PEF AF). The overall design and scope of the component remain the same; the aim is to slow down and limit the spread of COVID-19 in the country and beyond its borders by providing immediate support to enhance case detection, confirmation, recording and reporting, as well as contact tracing and risk assessment and mitigation. Under this component, the proposed AF will finance the procurement of additional supplies, PPE and laboratory test kits.
2. Component 2: Strengthening Overall Healthcare Services and Clinical Capacity for Emergency COVID-19 Response (US$1.85 million IDA credit and US$564,000 PEF AF). The overall design and scope of this component remain the same; it supports the strengthening of selected health facilities and establishment and equipping of quarantine and treatment centers to be able to provide the best care possible for people who become ill. The PEF AF finances the procurement of a computed tomography (CT) scanner to improve the clinical management of complications of COVID-19 confirmed cases. More importantly, CT scanner is a general-purpose and widely used tool that can support the cost-effective clinical management of innumerable other conditions. In Djibouti, there is only one functioning CT scanner in the Pelletier Hospital in Djibouti city. The additional CT will be placed in the Balbala hospital, located in a neighborhood in the capital where many of the vulnerable live, with a catchment population of 500,000.

Components 3 and 4 remain the same, and the AF funds will not go to these components.

Early Warning System Project Analysis

The World Bank classified the E&S project risks as 'Substantial'.

Investment Description

- World Bank (WB)

Funds are provided by the Pandemic Emergency Financing Facility.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
