Project Description

According to bank documents, the project objective is to support progress towards increased access to basic digital financial and government services targeting entrepreneurship and employment, particularly for women.

Designed as a COVID-19 relief and recovery operation, the SCALED-UP AF scales-up the parent project's existing activities by: (i) expanding access to finance for MSMEs; and (ii) accelerating critical reform and capacity building initiatives needed to underpin resilient recovery and safeguard sustainable livelihoods, particularly among women and women-owned businesses. As the project components and implementation arrangements needed to respond to this request are materially the same as those under the SCALED-UP parent project, this AF enables a swifter response than preparing a new project would entail thereby helping accelerate FGS COVID-19 response activities. The AF would build on the parent project activities to ensure continuity, timeliness, and effectiveness of the FGS response to COVID-19.
