#### **Project Description**

According to bank documents, the project objective is to support progress towards increased access to basic digital financial and government services targeting entrepreneurship and employment, particularly for women.

Designed as a COVID-19 relief and recovery operation, the SCALED-UP AF scales-up the parent project's existing activities by: (i) expanding access to finance for MSMEs; and (ii) accelerating critical reform and capacity building initiatives needed to underpin resilient recovery and safeguard sustainable livelihoods, particularly among women and women-owned businesses. As the project components and implementation arrangements needed to respond to this request are materially the same as those under the SCALED-UP parent project, this AF enables a swifter response than preparing a new project would entail thereby helping accelerate FGS COVID-19 response activities. The AF would build on the parent project activities to ensure continuity, timeliness, and effectiveness of the FGS response to COVID-19.
