## Project Description

The proposed DPO is the first in a series of three operations (2021-23). Its objective is to support inclusive growth in Sierra Leone, while ensuring sustainable development financing. This operation will support not only the government's short-term response to the pandemic but also the post-COVID recovery. It has two pillars designed to help the government implement its National Development Plan (2019-23) and Medium-Term Debt Management Strategy (2018-22). Pillar 1 focuses on boosting inclusive growth through reforms promote economic participation and empowerment of the most vulnerable groups of the population. This pillar also intends to support reforms to improve the business environment. Such reforms will be critical to facilitate private sector development and women and youth participation. Pillar 2 focuses on ensuring sustainable development financing through reforms to improve debt transparency, debt management and fiscal sustainability.
