Project Description

According to bank documents, the project objective is to Strengthen Inclusive Groundwater Management in the SADC Region at National and Transboundary Levels.

The proposed project directly builds on the results of the ongoing Sustainable Groundwater Management in SADC Member States Project (P127086). The new project deepens and broadens the efforts to support the SADC Member States and Transboundary River Basin Organizations (RBOs) to operationalize advances in knowledge generation and dissemination, to institutionalize gains in the capacity at local, national and transboundary levels to manage groundwater resources sustainably and equitably as well as to develop infrastructure solutions based on broad-based and inclusive consultations that are ready to be scaled up through investment programs.
