| **Project Cost (USD)** | $ 60.00 million |

## Project Description

According to the bank website, "The project development objective is to improve water supply services and climate resilience for the aridest eastern region of Kosovo through enhancing water storage capacity. The development of Kike-Kremenata reservoir is expected to sustainably enhance the water security for the eastern region of Kosovo and is considered critical infrastructure by the client. The necessary preparatory activities for the reservoir development are expected to be completed in FLOWS1. However, the whole FLOWS strategy (i.e., FLOWS1 and FLOWS2) may have to be reconsidered in light of the latest dialogue with the client and the pending effectiveness of FLOWS1, including potential revisions in the design and sequencing of the planned and on-going water operations.

## Investment Description

- World Bank (WB)

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
