Project Description

The objective of this project according to the bank website is to establish a transparent and efficient land administration system.

The project has five components:

1. Component 1: Institutional development and legal reform
 - i. Institutional development.
 - ii. Legal Reform
 - iii. Capacity Building
 - iv. Sensitization
2. Component 2: Development of Land Information System (US\$6 million)
 - i. Development and Installation of a land information system
 - ii. Base Mapping and Land Cadastre
 - iii. National Spatial Data Infrastructure (NSDI)
3. Component 3: Recording and Registration of Land Tenure Rights (US\$22 million)
 - i. Land Title Registration System – for Transactions
 - ii. Systematic First Time Registration of Properties
 - iii. Geodetic network
4. Component 4: Project Management. This component will finance all expenses required to ensure efficient and transparent project management and coordination. This will entail in particular the financing of PCU staff at the MLHCP; facilitation of meetings of a Project Steering Committee (PSC); and facilitation of VGGT Technical Working Group (TWG) meetings and consultations. Required studies, such as customer surveys, baselines, a mid-term review, and an implementation and completion report would be financed to inform the M&E system of the project. In addition, safeguards related studies will be financed from this component as well.
5. Component 5: Contingency Emergency Response Component (CERC). The CERC is a zero-sum component included to mitigate situations of urgent need and allows for the rapid reallocation of funding in the event of a natural disaster or crisis that has caused, or is likely to imminently cause, a major adverse economic and/or social impact
