## Project Description

The Program Development Objective is to improve: (i) equitable access to quality education and school health services in preprimary and primary schools; (ii) learning outcomes; and (iii) performance based management along the service delivery chain.

The development objective of the Strengthening Primary Education System Operation for Côte d'Ivoire is to improve: (i) equitable access to quality education and school health services in preprimary and primary schools; (ii) learning outcomes; and (iii) performance-based management along the service delivery chain. The strategic pillars of the education sector plan (ESP) focus on improving: (a) the quality and diversity of education and training offer; (b) the school, family, and community environment for a greater demand for education services; and (c) the quality management and governance of the system. The program aligns with the World Bank's Human Capital Project, which makes the case for investing in people and bolstering demand for interventions that will build human capital.
