Borrower	Government of Mozambique
Sectors	Education and Health, Law and Government
Investment Type(s)	Grant
Investment Amount (USD)	\$ 100.00 million
Project Cost (USD)	\$ 100.00 million

Project Description

According to bank documents, to support the Government of Mozambique to acquire, manage, and deploy Project COVID-19 vaccines, and to strengthen its pandemic preparedness, response, and health systems' capacity.

The parent project has four components:

1. Component 1 on Vaccines, Medical Supplies, and Cold Chain Equipment supports vaccine acquisition and ancillary supplies and equipment for deployment systems.
2. Component 2 on Vaccine Administration, Follow-up, and Community Engagement supports the implementation of prevention, detection and response activities in the National COVID-19 Preparedness and Response Plan, the NDVP, and the continuity of essential health services.
3. Component 3 on Continuity of Essential Services, supported through a Global Financing Facility Grant of US\$15 million, with complementary systems strengthening investments across Components 1 and 2, supports targeted interventions to address the disruptions of the COVID-19 pandemic in routine essential maternal, child and adolescent health services, while strengthening resilient health systems at the primary and community levels.
4. Component 4: Project implementation support strengthens the existing Program Implementation Unit (PIU) of the World Bank-financed portfolio in MISAU, including, inter alia, recruiting additional staff and covering operating costs, procuring necessary training and equipment, providing support for procurement, financial.

The proposed AF in the amount of US\$100 million will enhance the scope of the original project to enable a scale-up of project activities. The primary objective of the AF is to reimburse the GoM for the acquisition of approximately eight million doses of the Sinopharm vaccine. These doses were made available to the Government in September through a narrow window of opportunity through COVAX, requiring an immediate advance of US\$44 million to Gavi, for which the Government has requested retroactive financing through this AF. The additional resources that will be made available through this AF will finance the distribution, administration and ancillary costs related to the Sinopharm vaccine as well as additional medical supplies, equipment, renovations, health systems strengthening, and communications.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
