Project Description

According to bank documents, the objective of the overall proposed program with series of projects (SOPs) is to promote regional cooperation for sustainable fishery management in the RSGA region and strengthen the fishery value chain in RSGA countries.

The Development Objective of this first project of the program is to strengthen mechanisms for regional collaborative management of fisheries in the RSGA region and improve the the fishery value chain in Yemen.

The project has three components:

1. Component 1: Strengthening regional collaboration in management of marine fisheries and aquaculture in the RSGA region (approximately US$3.5 million). This component will aim to strengthen and sustain regional collaboration through support to science-based management of fisheries in the RSGA, development of a regional platform for coordination of policies, legislation, management plans and measures for responsible fisheries and aquaculture and use of ecosystems approaches, and support to regional level capacity building and technical assistance program on management of living marine resources responding to both anthropogenic and climate induced changes.
2. Component 2: Improving Economic Opportunities, Food Security and Effective Management of Fishery Production in Yemen. This component includes two sub-components which will be implemented by United Nation Development Program (UNDP).
    i. Sub-component 2.1. Improving the resilience of the fishery value chain for sustained livelihoods.
    ii. Sub-component 2.2. Governance systems and knowledge developed for effective management and climate resilience of fisheries.
3. Component 3. Project Management, Monitoring and Evaluation and Reporting. This will include two subcomponents:
    i. Sub-component 3.1. Project management, monitoring and evaluation and reporting by PERSGA.
    ii. Sub-component 3.2. Project management, monitoring and evaluation and reporting by UNDP.
