Project Description

According to bank documents, the project objective is to improve access to electricity in rural and peri-urban areas and plan for restoration of the national power sector.

The proposed Yemen Emergency Electricity Access Project-Phase II (RY-EEAP-II) will build on activities supported by the RY-EEAP, with an expanded focus on TA designed to support access to electricity supply and prepare for post-conflict restoration of the national power sector. The operation will adopt an integrated, area-based approach to expand electricity access for households and electricitydependent critical public services for the rural and peri-urban population and support preparation of interventions to improve electricity supply across Yemen in a sustainable manner.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
