Project Cost (USD)	\$ 50.00 million

WB-P178540

Second Additional Financing to Tunisia COVID-19 Response Project

Project Description

According to bank provided information, the project objective is to prevent, detect and respond to the threat posed by COVID-19 and strengthen national systems for public health preparedness.

The proposed AF will enable Tunisia to reach its revised, more ambitious coverage goals, and extend protection by providing boosters as well as increased health system capacity for case management for its population to combat the more transmissible Omicron variant as well as potential future variants.

The proposed AF will also enable Tunisia to further strengthen its health system capacity and resiliency, improving its ability to withstand future health and climate shocks.

The proposed AF will expand the scope of Component 1 (Emergency COVID-19 Response) to finance the purchase of 4.2 million vaccine doses, which will be utilized to contribute to closing the coverage gaps for Tunisia's vaccination goals.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
