Project Description

According to the Bank's website, the project provides supplementary funding to the Government of Ukraine to support the continued delivery of public services and finance social expenditures during a time of acute socio-economic and financing pressures. The project will finance part of the large emerging fiscal and external financing gap caused by the conflict, and – by safeguarding continued spending on critical social and public services – help to prevent a further deterioration in economic and social impacts of the crisis

Investment Description

- World Bank (WB)

The World Bank's response strategy in Ukraine is part of a coordinated engagement between GoU and other development partners. This operation is accompanied by linked parallel financing of US\$100 million from Japan, and underpinned by guarantee coverage to IBRD under this Supplementary DPF amounting to €79.75 million, and US\$50 million from the Netherlands and Sweden, respectively. The proposed MDTF co-financing would contribute to filling part of this unanticipated gap in financing. As of March 4, ECA has committed pledges from Iceland (US\$0.5 million), Latvia (US\$5.5 million), Lithuania (US\$5.5 million), Denmark (US\$20 million) and the UK (US\$100 million), with additional contributions also expected.
