WAPP Ghana-Burkina-Mali and Ghana-Cote d'Ivoire Interconnections Project

Early Warning System WAPP Ghana-Burkina-Mali and Ghana-Cote d'Ivoire Interconnections Project

Quick Facts

Countries	Ghana, Ivory Coast
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	A
Voting Date	2024-12-02
Borrower	Governments of Ghana and Ivory Coast
Sectors	Energy
Investment Type(s)	Grant, Loan
Investment Amount (USD)	\$ 360.00 million
Grant Amount (USD)	\$ 55.00 million
Project Cost (USD)	\$ 415.00 million

Project Description

According to the Bank's website, the Project Development Objective is to: (i) increase electricity trade between Ghana and Cote d'Ivoire; and (ii) to make the WAPP Information and Coordination Center fully operational.

The project entails the construction of a second cross-border interconnection between Ghana and Cote d'Ivoire, as well as the associated infrastructure and reinforcement of power transmission capacity at the national level to enable expanded and secure power exchanges. This second interconnection has been identified as a priority project by the WAPP Regional Master Plan. In particular, the line will complete the Coastal Transmission Backbone (CTB) that seeks to establish a 330 kV transmission network from Cote d'Ivoire to Nigeria passing through Ghana, Togo and Benin, enabling a major regional market between the five countries in the southern part of WAPP. Furthermore, with the new interconnection, Ghana and Côte d'Ivoire will be able to share their reserves and thus improve the security of supply on both sides. With both countries being key net exporters into the WAPP market, the interconnection is expected to de-saturate power flows on existing infrastructure thereby facilitating increased power trade and at the same time contributing to improve the stability of the WAPP network particularly in the central and eastern areas. The project will also continue and strengthen World Bank's assistance to WAPP and its agencies with the clear objective of addressing the most impending needs to advance the readiness of the regional power market.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-toinformation/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
