Sindh Livestock and Aquaculture Sectors Transformation Project

Quick Facts

Countries	Pakistan
Specific Location	Sindh
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	B
Borrower	Islamic Republic of Pakistan
Sectors	Agriculture and Forestry
Investment Type(s)	Loan
Investment Amount (USD)	\$ 125.00 million
Loan Amount (USD)	\$ 125.00 million
Project Cost (USD)	\$ 125.00 million

Project Description

According to World Bank, the objective of this project is to promote to support the competitive, inclusive, green, and resilient development of the livestock and aquaculture sectors in Sindh province of Pakistan. The Sindh Livestock and Fisheries Department (L&FD) will lead the implementation of the proposed Project.

People Affected By This Project

The environment risks at concept stage is assessed as substantial and social risks are assessed as moderate.

The main environmental risks of the project are associated with civil works to support rehabilitation and reconstruction of infrastructure (office building, laboratories etc.) and aquaculture activities to be supported under the project. The civil works related anticipated environmental risks are related to localized air and noise pollution, generation of wastewater and disposal of solid waste generation with most of the anticipated impacts are reversible small scale and likely to occur only during construction. There are environmental pollution and CHS/OHS risks associated with use and disposal of vaccines/syringes procured by the Projects. The aquaculture interventions to be supported under the project could have potential environmental impacts related to water pollution and waste disposal of aquaculture activities, risks associated with intentional or accidental introduction of invasive species and risks of water scarcity and water use competition among different water users. The environmental impacts of aquaculture investments can also lead to degradation of land if interventions are planned in already stressed critical habitats like wetlands and mangroves forests of Sindh .

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
