Borrower	Government of Mozambique
Sectors	Agriculture and Forestry, Climate and Environment
Investment Type(s)	Grant
Investment Amount (USD)	$ 50.00 million
Project Cost (USD)	$ 54.00 million

Project Description

According to bank documents, the project objective is to improve the performance of targeted small agriculture producers and AgriMSMEs and improve natural resources management practices in selected project areas.

A new Improving FNS component will be included in the project as its fifth component and will have three subcomponents.

a. New Subcomponent 5.1: Small infrastructure. This subcomponent will finance the following:
    i. Rehabilitation of irrigation schemes.
    ii. Rehabilitation of rural roads.
    iii. Construction/installation of boreholes and water tanks.
b. New Subcomponent 5.2: Support to small farmers, livestock breeder, and fishermen. This subcomponent will finance the following:
    i. Provision of agricultural kits/seeds.
    ii. Provision of hermetic bags, installation of family silos.
    iii. Provision of small equipment/tools.
    iv. Building of small livestock infrastructure.
    v. Provision of equipment for the veterinary lab in Tete.
    vi. Provision of diagnostic consumables to the veterinary service in Nampula.
    vii. Establishment of a small ruminant scheme.
    viii. Fisheries and aquaculture.
c. New Subcomponent 5.3: Implementing a local approach to improve nutrition. This subcomponent will finance the following:
    i. Training in utilization of local products for enhanced nutrition security.
    ii. Mobile nutrition kitchens.
d. Changes in Subcomponent 3.1. The allocation to subcomponent 3.1 (Policy and institutional support) will be increased to finance strengthening of SETSAN. SETSAN is the national authority responsible for updating the status of acute and chronic FNS in rural, urban, and peri-urban areas of the country. More specifically, it is in charge of assessing the progress achieved and the status of chronic food insecurity and of chronic malnutrition for children between 0 and 5 years. There is an urgent need to improve SETSAN’s ability to collect and analyze data in IPC protocols and its capabilities to cover all districts in the country. SETSAN should also become capable to analyze the impact of past FNS interventions on the ground, to ensure the monitoring of ongoing FNS interventions, produce training material, and develop sound communication material in case of shocks/emergencies.
    i. Provide the necessary hardware and software capacity to SETSAN.
    ii. Strengthen the existing early warning System within SETSAN.
    iii. Emergency Preparedness Plans.
    iv. Implement a new baseline study.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
