Project Description

As stated by the World Bank, the development objective of the Water Security and Resilience Program for Morocco is to strengthen water sector institutions and increase water availability in selected areas in Morocco. The program is structured around three results areas (RA) that provide mutually reinforcing incentives for the completion of activities needed to achieve the program development objective:

RA 1: strengthening water sector governance;

RA 2: improving financial sustainability and water use efficiency; and

RA 3: enabling the integration of non-conventional water resources.

Early Warning System Project Analysis

As stated by the World Bank, "the E&S risks are assessed as Substantial".

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
