Sectors	Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	\$ 600.00 million
Project Cost (USD)	\$ 600.00 million

Project Description

According to the Bank's website, the project development objectives are to increase flood control for people living in selected areas of Türkiye and to strengthen the country's institutional capacity for flood and drought risk management.

Components:

Component 1: Flood Management

Component 2: Drought Management

Component 3. Capacity Development and Institutional Strengthening

Component 4. Project Management

Early Warning System Project Analysis

Environmental and social risks are rather as Substantial.

The potential environmental and social risks and impacts will be mostly relevant to Components 1 and 2 and be comprised of impacts on aquatic and terrestrial habitats due to construction of flood management structures, river bed alteration, water pollution, land clearance and impacts on floodplain habitats and vegetation, use of borrow and aggregate material as well as typical construction risks and impacts such as air and noise emissions, waste management, soil management, labor and working conditions, occupational health and safety risks, community health and safety (including traffic safety), risk of increased SEA/SH incidents due to labor influx; increased transmission risks of COVID-19 from incoming workers; structural safety of the flood protection structures depending on the size, habitat disturbance due to construction and economic displacement due to the required land acquisition for construction activities. Physical displacement is not expected.

Investment Description

- World Bank (WB)

A proposed loan in the amount of eur 559.3 million (us\$600 million equivalent).

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
