Project Description

As stated by the World Bank, the proposed operation is the first of a programmatic series of two Development Policy Loans that aims to assist the Government of the Philippines (GoP) to foster an enabling environment for the adoption of digital technologies and to boost inclusive and resilient economic growth.

the development objective of the First Digital Transformation Development Policy Financing for Philippines is to support government reforms to foster an enabling environment for greater digital technology adoption by: (a) improving digital transformation of government and digital infrastructure policies, (b) expanding financial inclusion through digital finance, and (c) boosting business growth in digital services. The development policy loans series builds on the nation's long-term vision articulated in AmBisyon Natin 2040 and the recently launched Philippine Development Plan 2023-2028 to achieve inclusive growth and supports the government's reform agenda in accelerating digitalization.

Early Warning System Project Analysis

As stated by the World Bank, the overall project risk is "Moderate".
