## Project Description

According to World Bank, the program development objective is to (i) improve debt and public investment management; (ii) improve financial viability and service delivery in the energy and telecom sectors; and (iii) enhance the transparency and governance framework of State-owned Enterprises. Among the state-owned enterprises financed by the project, there is the National Water and Electricity Company, that - as stated at p. 7 of the [Project Information Document](#) , it relies entirely on heavy fuel oil utility.

## Early Warning System Project Analysis

As stated by the World Bank, the overall risk rating of the operation remains high, and some risks (sector strategies and institutional capacity) have increased on account of the impacts of the war in Ukraine.

The policies supported by the FMETDP 2 are not expected to negatively affect The Gambia's environment, forests, water resources, habitats, or other natural resources. This assessment remains environmentally neutral.

## ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

## ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
