<b>Investment Amount (USD)</b>	\$ 300.00 million
<b>Loan Amount (USD)</b>	\$ 300.00 million
<b>Project Cost (USD)</b>	\$ 420.00 million

## Project Description

According to the Bank's website, the objective of the Accelerating Sustainable and Clean Energy Access Transformation Program using the Multiphase Programmatic Approach Project, to which participating countries and regional institutions will contribute, is to increase access to sustainable and clean energy in Eastern and Southern African countries.

There are five components to the project, the first component being Digital Monitoring, Reporting, and Verification (D-MRV) platforms for energy access and climate finance.

The second component is the Project Preparation Facility (PPF). This component includes three subcomponents: Project development support to national agencies, Cross-border solutions, and Support to private-sector DRE and clean cooking companies.

The third component is the advisory support facility. This component will support participating countries on strengthening the policy and regulatory environment for energy access.

The fourth component is the knowledge exchange, skills development, consumer engagement, convening and partnerships. This component will build data, knowledge, and skills for energy-access planners, funders, and providers, as well as their current and prospective employees and energy-access consumers.

Finally, the fifth component is the project management and capacity-building support to the COMESA Project implementation unit. This component will provide the COMESA PIU specific support for building capacity to implement and monitor activities under the regional Platform and strengthen capacities in specific areas, including DRE, E&S, and gender.

## Early Warning System Project Analysis

According to the World Bank, the project environmental and social risks are 'Substantial', and the overall programme risk is 'Moderate'.

## ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

## ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
