Early Warning System Project Analysis

According to the World Bank, the project-related environmental and social risks are 'Substantial'.

People Affected By This Project

The Social Risk Rating is considered Moderate due to the ESS5 impacts which are anticipated to be small-scale and are not expected to involve the physical displacement of people.

The environmental risk rating is considered Substantial due to (i) the anticipated occupational and community health and safety risk during construction (e.g. working at heights and difficult terrain); (ii) traffic management issues related to transporting equipment and materials through residential areas and narrow winding roads; (iii) potential impacts on biodiversity including the possibility of bird collisions; and (iv) institutional capacity of DGDC to supervise and monitor the DGRMP (which has a Substantial E&S risk rating) and DGRMP II if both are implemented simultaneously.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
