Investment Amount (USD)	\$ 400.00 million
Project Cost (USD)	\$ 404.00 million

Project Description

According to the Bank's website, the development objective is to increase the use of renewable energy in public facilities.

The project comprises of four components:

1)The first component, RE investments in central government facilities will support investments in central government and central-government-affiliated facilities (for example, public buildings under central ministries, universities, and hospitals) and will be implemented by the General Directorate of Construction Affairs (GDCA) under the Ministry of Environment, Urban and Climate Change (MoEUCC). It consists of following sub-components: (i) RE investments in central government facilities; and (ii) pilot to combine RE investments with heat pump installation in central government facilities.

2)The second component, RE investments in municipalities will finance design, design review and supervision of installation and works, and investments in RE installations in municipalities, through a financing mechanism to be established and operated by Iller Bankasi A.S. (ILBANK) to provide sub-loans to the municipalities. The third component, technical assistance and project implementation support will finance project management and implementation support activities. It consists of following sub-components: (i) technical assistance and project implementation support for Ministry of Environment, Urbanization, and Climate Change (MoEUCC); and (ii) technical assistance and project implementation support for ILBANK. The fourth component, contingent emergency response component (CERC) will allow the Government of Turkiye to respond promptly and effectively to an eligible emergency or crisis, that is a natural or human-made disaster or crisis that has caused or is likely to imminently cause a major adverse economic and or social impact by requesting a rapid reallocation of project funds.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
