Project Description

According to the Bank's website, the objective of this project is to improve access and utilization of quality health and nutrition services and build health system resilience in select geographical areas.

The development objective of the Bangladesh - Health, Nutrition and Population Sector Development Program-for-Results is to support a subset of the Government's program in the two targeted divisions (Chattogram and Sylhet) among the eight divisions in Bangladesh. The Program focuses on three RAs and will incentivize the achievement of corresponding DLIs. Selected PDO and intermediate outcome indicators have been strategically included as DLIs. These have been selected based on the extent to which they signal the implementation of critical actions or the realization of key outcomes that need additional incentivization. Table 4 lists the DLIs across the three RAs while Annex 2 provides more details on each DLI (including whether they are time-bound and scalable) and the corresponding verification protocols.

Early Warning System Project Analysis

The initial assessment of both environmental and social risk levels is considered moderate.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
