Project Description

According to the World Bank, the project development objective is to enable the restoration of essential energy services in Ukraine.

The project consists of three components: 1) The first component, Emergency equipment for the electricity transmission infrastructure, will fund procurement of emergency equipment for Private Joint Stock Company “National Power Company “Ukrenergo” (UE), which includes autotransformers, transformers, instrument transformers, reactors, circuit breakers, disconnectors, surge arresters, relay protection devices, and substation automation equipment. 2) The second component, Emergency equipment for the heating services, will be funded upon the provision of additional contributions from donors for procurement of essential equipment and materials for heating services. 3) The third component, Project Management and Monitoring, aims to ensure the implementation of the project and also to enhance the capacity of the Project Implementation Unit under UE.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
