| Investment Amount (USD) | \$ 15.00 million |
| Project Cost (USD) | \$ 21.25 million |

Project Description

According to the Bank's website, the objective of this project is to: (i) enhance the safety and resilience of selected education facilities; (ii) improve the quality of data-driven education management, curricula and assessments in the selected educational programs; and (iii) in case of an Eligible Crisis or Emergency, respond promptly and effectively to it.

Components

Component 1: Improving Safety and Resilience of Education Facilities

Component 2: Improving Learning and Teaching Conditions in Early Childhood, Primary and Secondary Education

Component 3: Contingent Emergency Response Component

Component 4: Project Management

Early Warning System Project Analysis

The environmental and social risks for the Parent Project and the AF are assessed to be moderate, given risks and impacts are not likely to be significant, large or complex and are expected to be predictable, temporary and reversible. Key environmental and social risks in relation to the small scale civil works under Component 1 are standard for works of these type and scale and remain unchanged from the Parent Project.

Activities under sub-component 2.3. and 2.4 through the AF relating to the improvement of teaching conditions including TA activities and the procurement of science equipment and ICT equipment, air conditioning units and outdoor play equipment will require end-of life waste management and may generate safety risks relating to equipment installation/assembly.

There are sporadic instances of corporal punishment in Tongan schools which present a risk to student beneficiaries which will be managed through activities under Component 2.3.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
