

 Early Warning System

WB-P181160

Angola Secondary Cities Support Program

Quick Facts

Countries	Angola
Specific Location	Huambo, Benguela, and Lubango
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	A
Voting Date	2024-06-20
Borrower	Government of Angola - Ministry of Public Works, Urbanization and Housing
Sectors	Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	\$ 300.00 million
Project Cost (USD)	\$ 400.00 million

Project Description

According to the Bank's website, the objective is to strengthen institutional capacity for climate-informed urban growth management and urban infrastructure delivery, and increase access to affordable housing solutions in select urban areas in Angola.

The PACSA Program will support design and implementation of three of the four sub programs of the Guided Self-Construction Program (Auto-Construção Dirigida, ACD) (the sub-program targeting agricultural areas is excluded) in selected secondary cities, focusing on the provision of basic services, planning instruments, titling, and beneficiary selection and transfer. Through the implementation of the Program, local and national institutions will be strengthened for the effective management of urban growth in three of Angola's largest secondary cities – Huambo, Benguela, and Lubango – and capacity for the management of public-private partnerships for the delivery of affordable housing will be enhanced.

Early Warning System Project Analysis

The overall risk of the Program is assessed as 'Substantial'. The following risk categories are rated substantial: Macroeconomic, Technical Design of the Program, Institutional Capacity for Implementation and Sustainability, Fiduciary, and Environmental and Social.

PACSA will not finance any high-risk activity that may have adverse environmental and social risks. The Program will avoid subprojects that are likely to cause significant adverse impacts on the environment and/or affected people; particularly risks associated with potential loss or conversion of natural habitats, potential pollution or other project externalities, and changes in land or resource use. The Program will also consider social effects such as nature/scale of involuntary resettlement or land acquisition required, and potential impacts on vulnerable communities.

Investment Description

- World Bank (WB)

A proposed loan in the amount of US\$300 million.

Counterpart Funding (Borrower/Recipient): US\$100 million.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
