Project Description

According to the World Bank, the objective of the Project is to provide short-term livelihood opportunities and deliver urgent essential services in rural and urban areas.

This additional financing is planned in two tranches, with the first tranche of US\$70 million from the Afghanistan Resilience Trust Fund approved on January 30, 2024 and second tranche of US\$84 million proposed from IDA. IDA resources will complement ARTF funds and are needed to extend the geographical coverage, double the impact, and continue to provide jobs and basic services to millions of poor Afghans.

It is estimated that an additional 372,000 HHs will receive jobs by creating over 13 million labor days, and 3.2 million people in these areas will receive services such as the rehabilitation of small-scale community assets (e.g., improved roads with climate resilience consideration, flood protection walls, community drainage and water canals to adapt to increasing floods, agroforestry, and other climate-resilient assets).

Investment Description

- World Bank (WB)

As stated by the World Bank, the Afghanistan Resilience Trust Fund (managed by the World Bank Group) will contribute to the project with an additional financing in the amount of US\$ 70.00 million, in the form of a grant.
