Private Actors Description

As stated by the World Bank, the Khorezm Solar IPP Project is being implemented by Voltalia, a global renewable energy developer, and the National Electric Grid of Uzbekistan (NEGU).

NEGU is a state-owned entity established in June 2019 as a JSC with 14 regional transmission branches and a number of engineering, construction, and social subsidiaries and units. The sole shareholder of NEGU is the Ministry of Economy and Finance.

Voltalia SA (Voltalia), a subsidiary of Voltalia Investissement SA, is a producer and service provider of renewable energy, founded in France in 2005. The company generates and distributes renewable electricity using wind, biomass, hydro and solar energies. Voltalia's international experience extends to project development, project financing, engineering, procurement and construction (EPC) services.
