Project Description

According to the Bank’s website, the Project Development Objective (PDO) is to increase access to social safety nets for poor and vulnerable populations and refugees, and to strengthen Chad’s social protection system.

Components:
- Roll-out of the National productive safety net program (PSSSNP)
- Strengthening the social protection system
- Project management

Early Warning System Project Analysis

The environmental risk is rating moderate at this stage as potential risks and impacts on the environment are expected to be manageable with good practice measures. As no infrastructure is planned under the project, no irreversible impacts are anticipated. The main potential risks associated with the activities of the Project are occupational and Community Health and Safety. Also, distribution of healthcare material and digital devices can pose environmental risks related to safe final disposal of hazardous waste. Risks related to medical waste, e-waste generation and energy consumption will require adequate mitigation measures, especially in the national context where waste management is general limited.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
