Sectors	Industry and Trade
Investment Type(s)	Loan
Investment Amount (USD)	\$ 600.00 million
Project Cost (USD)	\$ 600.00 million

Project Description

According to the Bank's website, the development objective of the Small Industrial Estates Reconstruction and Regional Economic Recovery Project for Türkiye is to support the restoration and sustainability of micro, small, and medium enterprises (MSME) operations in the earthquake-affected provinces through building resilient and low-emission small industrial estates (SIEs). The project comprises of two components. The first component, construction of resilient and low-emission SIEs will finance the construction of approximately 1,600 workshops within seven new SIEs, which will then be sold to eligible MSMEs. The second component, technical assistance and project management will provide technical assistance and capacity building to key stakeholders, including Ministry of Industry and Technology (MoIT), beneficiary MSMEs, SIE sites management, and others. It consists of the following sub-components: (i) project management and support for the Project Implementation Unit (PIU); and (ii) technical assistance and capacity building for MoIT, SIE site management teams, and MSMEs.

Early Warning System Project Analysis

Both the environmental and social risks are assessed as “Moderate” due to nature of activities and the urban or semi-urban setting where the activities will be undertaken. The key environmental risks at construction stage include potential adverse impacts due to dust and noise generation, vehicle and machines emissions, generation of construction waste, hazardous material and waste including oil, grease, hydrocarbons as well as Occupational Health and Safety (OHS) issues, including traffic management and safety of local population. In most cases the impacts are limited to direct physical project area and could not have a wider impact. The key social risks include land use related impacts, management of labor (e.g., non-compliance with laws, exploitation of labor, health and safety risks, labor influx), social exclusion (of targeted beneficiaries, especially the vulnerable groups), social tensions, community health and safety and Sexual Exploitation and Abuse and Sexual Harassment (SEA/SH) risks.

Investment Description

- World Bank (WB)

A proposed loan in the amount of EUR553 million (US\$600 million equivalent).

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
