Improving Early Detection of and Response to HEs through a multisectoral approach

Project Management

CERC

Early Warning System Project Analysis

Environmental risk rating The Project's environmental risks have been analyzed and is "Moderate". In summary, the project will have considerable positive outcomes, as it aims to strengthen the preparedness, response, and resilience of health systems in Burundi to HEs. The main environment, health, and safety risks include infectious waste; pharmaceutical waste; chemical waste; contaminated wastewater; lack of provision of adequate potable water at healthcare facilities; potential existing on-site environmental liabilities; potential environmental, health, and safety impact/risks; air emission sources at healthcare facilities; and potential risks related to exposure of biological agents; and health safety risks and impacts that may result from exposure to hazardous materials/waste, and radiation. No greenfield civil works are expected during the project implementation.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
