<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 70.00 million
<b>Project Cost (USD)</b>	\$ 90.00 million

---

## **Project Description**

According to the Bank's website, the objective of this project is to increase access to, and inclusive use of, the internet and improve the Government's capacity to deliver digitally enabled services.

Components:

1. Affordable broadband and secure data hosting
2. Interoperable and secure data platforms
3. High-impact digital services and productive digital usage
4. Program management and capacity building

## Early Warning System Project Analysis

The possible ESS risks and impacts related to the project during the construction and operation/maintenance phases are diverse and are expected to have both positive and negative impacts on the environment, as well as potential health and safety risks to workers and communities if not managed properly. The ESS risk is Substantial.

For social safeguards, the rating considers the likely social risks and impacts resulting from project activities related to support national ID, scale-up of the data exchange platform, and development of e services that require safe handling and protection of personal data. There will also be risks associated with the rollout of the broadband infrastructure, which may include temporary displacement of people or land acquisition. There could also be possible inherited risk of social exclusion due to lack of affordable devices in the country. The environmental risks are associated with the e-waste management, which is being supported by the project.

The country is exposed to a high risk of flood, which may adversely affect digital infrastructure by damaging fiber optic networks and microwave networks, for which the project will deploy financing.

### ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

### ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
