## Project Description

According to the Company's website, the project aims to increase the inclusion of marginalized groups in decision-making processes and access to benefits provided by the Emission Reductions (ER) Program and associated Benefit Sharing Plan (BSP); Marginalized groups include Indigenous Peoples, Dalit, Madheshi Muslims, Persons with Disabilities (PWDs) and women, in targeted districts and local communities of the Terai Arc Landscape.

### Early Warning System Project Analysis

This project will support mainly in capacity building of CFUGs in marginalized areas targeted for carbon finance through ERP. The activities will mainly constitute of trainings, mentoring and coaching on the ER-P and BSP, decision making and others. Component 2 in particular envisions to provide grants for tree planting on private landholdings of marginalized IPLC for supporting in livelihood and reducing pressures on firewood, timber and other products. Component 3 will build upon the activities of components 1 and 2 to promote awareness and help facilitate more productive relationships and decision making among key stakeholders in the forestry and IPLC sectors to contribute to broader efforts for locally led climate action. The envisaged environmental risks of the project are associated with biodiversity, forests, health and safety, and use of chemicals, herbicides and pesticides. Possible negative impacts from these small-scale investments are expected to be minor, localized, and reversible. Considering, that the scale and type of activities supported are not yet confirmed by the project the environmental risk is moderate.

The social risks associated with the project activities at this stage are deemed moderate. Activities with potential adverse risks and impacts on human population is not anticipated. Project will support livelihood activities, private plantation and others but does not envisage construction/civil works that involve physical and economic displacement.

---

## ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

## ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
