Project Description

According to the Bank's website, the objective of this project is to expand support for the immediate social recovery needs of vulnerable groups in Lebanon.

Early Warning System Project Analysis

The environmental risk is determined as Moderate. Although there are no civil works interventions, for the support of Mobile Medical Units (MMUs) and NGO-run Primary Healthcare Centers (PHCs) in their outreach teams to PWDs (under Component 1.3), there are risks associated with the handling of the medical waste.

The SRP Phase 2 is rated as having 'moderate' social risks similar to the SRP Phase 1 because the potential adverse risks and impacts on human populations are not likely to be significant, the project is not complex and/or large, and does not involve activities that have a high potential for harming people, risks are predictable and expected to be temporary and/or reversible, low in magnitude and the risks and impacts can be readily mitigated.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
