Supporting the Transition to a Sustainable Electricity Sector in Argentina

Project Description

The objective of the Supporting the Transition to a Sustainable Electricity Sector Project is to strengthen institutional capacity to rationalize energy subsidies in Argentina. There are two components to the project, the first component being project management, capacity building, and instruments to foster sector sustainability. This component will focus on strengthening the GoA's capabilities for the implementation of component 2 to ensure ongoing efforts and potential subsidy reforms can be effective, efficient, and clearly communicated. The component will also seek to support the improvement of capacities to assess and address key impacts of subsidy reform, particularly on the most vulnerable households, as well as key drivers of the energy sector's sustainability. This component includes two subcomponents: project management and strengthening institutional capacities and processes to improve sector sustainability. The second component is the financing rationalized electricity subsidies for users with validated eligibility criteria.

Contact Information

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
