| Project Cost (USD) | \$ 728.00 million |

Project Description

As stated by the World Bank, the Project Development Objectives (PDOs) are to improve irrigation service delivery and water efficiency in selected irrigation schemes.

The proposed project builds on and replicates the ongoing TIMP in other irrigation schemes distributed over the country, covering total agricultural area of around 100,000 hectares, including: Uluabat Pumping Irrigation, Eskisehir Irrigation, Seyitgazi Irrigation, Inonu Irrigation, Ilgin Pumping Irrigation, Atlanti Irrigation, Aksu Irrigation, Gelendost Irrigation, Sarkikaragac Pumping, Kalealti Irrigation. Additionally, the project will focus on strengthening the capacity of Water User Associations (WUAs) to ensure effective and sustainable water management.

Early Warning System Project Analysis

According to the World Bank, the project-related environmental and social risks are 'Substantial'.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
