### Project Description

According to bank's website, the approved project aims to improve the operational effectiveness and efficiency of the NRPB and strengthen the capacity of the Sint Maarten public administration to sustain SXM TF project results beyond the SXM TF closing. The project will have three components. The first component will sustain and enhance the ability of NRPB to implement SXM TF projects. This will be informed by an Institutional Assessment (IA) of NRPB's operational policies and practices, with recommendations for improvement. The project will ensure that cross-cutting operational costs associated with the implementation of these projects are funded, effectively managed and optimized, allowing for better resource allocation and more impactful project outcomes. The second component will focus on strengthening the GoSXM's capacity to effectively sustain and expand upon the investments and outcomes achieved through the SXM TF. This component will facilitate the transition in responsibilities from NRPB to GoSXM for stewardship of TF resources and assets as the SXM TF approaches its closure. Additionally, this component will lay the foundational elements necessary for the establishment of a DRF, to enable the GoSXM to prepare and respond to future climate and disaster emergencies. Finally, component three will provide technical assistance to the GoSXM for project management of those activities for which it is the primary beneficiary.

## Contact Information

Task Team Leader: C. Bernard Myers

Title: Senior Public Sector Specialist

Email: [bmyers@worldbank.org](mailto:bmyers@worldbank.org)

## ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

## ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
