Project Description

According to bank's website, the approved project aims to (i) promote efficiency, transparency, and equity of public finance; (ii) foster more competitive and inclusive product and labor markets; and (iii) strengthen climate action. The operation, second in a three-operation series, advances fiscal and governance reforms by mandating a Treasury Single Account (TSA), submitting amendments to the Public Financial Management Act to accelerate disbursements of capital grants to counties, rolling out electronic government procurement (e-GP), tightening payroll controls, and enforcing conflict-of-interest regulations to curb misuse of public office. It strengthens social protection through regulations that operationalize the Enhanced Single Registry (ESR) for objective identification, enrollment, and recertification of beneficiaries under the National Safety Net Program (NSNP), with indexation of benefits envisaged.
