Project Description

This Project is the first phase of an MPA to support infrastructure development for economic diversification in the Patagonia and Northwest Regions of Argentina. The Project includes a range of activities aimed at improving access to infrastructure services and enhancing tourism assets in the province of Neuquen, to support the local economic development of targeted regions in the province. These include interventions to improve and rehabilitate the road network, the construction of water supply and sanitation networks, provision of basic urban and tourism infrastructure, and the protection of key assets for tourism development against disaster risks. It also includes a range of institutional strengthening efforts and private capital enabling initiatives.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
