Project Description

Component 1 (Data Systems and Institutional Capacity) will strengthen the data systems and infrastructure on which agriculture innovation is based, while improving the capacity of regional organizations and national partners to use those data and tools to generate, manage, and disseminate innovation. Component 2 (Inclusive Innovation Scaling) will develop a menu of mechanisms through which public and private actors will deliver innovation to farmers, while improve technical and entrepreneurial skills so agriculture professionals can access job opportunities and continue driving agriculture innovation. Component 3 (Project Management) will support the day-to-day implementation, coordination, supervision and overall communication and management of project activities.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
