## Project Description

According to bank's website, the approved project aims to bolster inclusive growth and resilience by: (i) strengthening fiscal resilience, (ii) enabling foundations for private sector development, and (iii) supporting social, disaster, and climate resilience. The operation supports the Maximizing Finance for Development (MFD) approach by strengthening the policy and regulatory foundations needed to mobilize private investment in energy and digital infrastructure. The DPF is complemented by World Bank-financed investment projects that provide critical implementation support to operationalize prior actions and sustain results. The Liberia Urban Resilience Project supports implementation of zoning, solid waste management, and flood risk management reforms. Collectively, these operations provide complementary financing and capacity-building support to translate DPF prior actions into sustained outcomes and crowd in private investment, including through IFC and Multilateral Investment Guarantee Agency (MIGA) engagement. IFC supports private investment through advisory and investment activities in financial services, digital infrastructure, and energy, complementing the operation.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
