RESILAND CHAD: Building Resilience through Sustainable Natural
Resource Management

Quick Facts

Countries	Chad
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	A
Voting Date	2025-11-28
Borrower	Government of Chad - Ministry of Finance, Budget, Economy and Plan
Sectors	Climate and Environment, Law and Government
Investment Type(s)	Grant
Investment Amount (USD)	\$ 109.31 million
Project Cost (USD)	\$ 109.31 million

Project Description

According to the Bank's website, the objective of this project is to support climate resilient landscapes and livelihoods through sustainable natural resource management in targeted areas in Chad.

The project aims to strengthen the resilience of vulnerable rural populations in the face of climate change, including the fight against land degradation and desertification, and to support the integrated and inclusive management of natural resources and land, including increased availability of water resources to support livelihoods. The project will support the development of low-carbon, nature-positive, value chains from non-timber forest products (NTFP) for vulnerable populations, particularly women and young people in the Great Green Wall intervention zone. Value chains such as gum arabic, balanites, and forage crops, will be part of nature based solutions to improve resilience to climate variability, restore degraded lands and improve economic resilience of vulnerable populations. Investments will include planting native and drought-resistant trees and crops, forest conservation, assisted natural regeneration, agroforestry, land restoration, adequate management of surface water (stabilization of dunes, stone lines, hedges, water catchments), reforestation with local and non-invasive species. The project will invest in improving knowledge and management of water resources, essential for maintaining livelihood activities, and will include water retention weirs and underground water harvesting practices.

Early Warning System Project Analysis

Environmental and Social Risk Classification: Substantial

Investment Description

- World Bank (WB)

IDA Grant: US\$ 100.00 million

Adaptation Fund: US\$ 9.31 million

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
