Integrated Resilient Development Project

Quick Facts

Countries	Vietnam
Specific Location	Da Nang City and Gia Lai Province
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	A
Voting Date	2025-09-30
Borrower	The Socialist Republic of Viet Nam
Sectors	Infrastructure, Law and Government, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 144.97 million
Loan Amount (USD)	\$ 144.97 million

Project Description

According to bank's website, the approved project aims to enhance access to resilient infrastructure and planning and management capacity for disaster-resilient development at the provincial level. The IRDP will finance a targeted package of climate-resilient infrastructure investments in Da Nang City and Gia Lai Province, selected to reduce disaster and climate-related risks, strengthen access to critical services, and support inclusive economic growth. The project adopts a multi-sectoral approach that integrates disaster risk management and climate adaptation considerations into infrastructure development. It is fully aligned with the city's and province's Socio-Economic Development Plan (SEDP), masterplans, and investment priorities. The core activities include the construction and rehabilitation of flood drainage systems, multi-purpose flood and storm surge protection works, climate-resilient roads and bridges, and integrated evacuation routes in urban and peri-urban areas. These investments were identified based on detailed flood risk assessments, site-specific hydrological and geotechnical studies, and scenario-based investment prioritization processes. Engineering designs incorporate flood modeling, sea level rise projections, and material specifications to ensure infrastructure durability under both current and future hazard conditions. By targeting critical corridors and vulnerable population clusters, the infrastructure improvements are expected to reduce acute disaster impacts, minimize service disruptions, and protect lives and livelihoods.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
