Quick Facts

Countries	Kyrgyzstan
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	B
Voting Date	2025-10-24
Borrower	Ministry of Finance
Sectors	Law and Government

Project Description

According to bank's website, the approved project aims to support the Government of the Kyrgyz Republic to respond promptly and effectively in case of an eligible crisis or emergency.Upon declaration of an "eligible crisis or emergency," the CERP may be activated to finance immediate needs through fast-disbursing items that do not create a new physical footprint. The objective is to cushion immediate impacts on vulnerable populations by ensuring access to critical supplies, essential services, and enabling resources for rapid response. Illustrative categories include:a) Emergency Response Support: Equipping first responders with Personal Protective Equipment (PPE) and ensuring access to adequately equipped facilities to maintain uninterrupted emergency services. Typical items: PPE (masks, gloves, suits), mobile sanitation units, communication tools, and light emergency equipment.Sourcing tailored to crisis type; procurement from local and international suppliers to enable rapid deployment.b) Emergency Livelihood Support to Households: Direct emergency income support to disaster-affected people/households via scaled cash transfers to smooth consumption and meet basic needs. Delivery through existing mechanisms: Uy-Bulogo Komok (UBK) targeted social assistance, other cash-transfer initiatives, and the Corporate System of Social Assistance of the Ministry of Labor, Social Security and Migration (MoLSSM). Modalities may include one-off or time-bound top-ups for existing UBK beneficiaries and Social Passport holders in priority affected areas, and enrollment of newly eligible households in impacted locations via relevant social registry databases.c) Provision of Essential Emergency Supplies and Services: Financing urgent procurement and distribution of essentials to sustain critical services and meet immediate needs, such as: water supply and sanitation, food staples, pharmaceuticals, medicines and medical equipment, light equipment and supplies, agricultural inputs and veterinary medicines, green stoves, and rental of light equipment to restore access and support implementation. Supplies are tailored to the crisis type and sourced from local and international vendors for fast delivery to hardest-hit areas.d) Emergency Response Coordination and Management: Incremental operating expenditures incurred by government entities to support response and early recovery, including evacuation processes, shelter administration, additional transportation costs, increased electricity bills for public facilities, staff overtime, and rental of critical machinery (e.g., generators for emergency power and temporary shelters, debris removal equipment). Just-in-time technical assistance and specialized consultancies for emergency response management, procurement preparation, and other technical needs.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
