Bioeconomy and Sustainable Regional Development project

Quick Facts

Countries	Brazil
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	C
Voting Date	2027-03-30
Borrower	Federal Government of Brazil
Sectors	Agriculture and Forestry, Finance, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	$ 205.00 million
Loan Amount (USD)	$ 205.00 million
Project Cost (USD)	$ 500.00 million

Project Description

According to the WB, the develpment objective is to expand access to finance to promote inclusive economic development and climate resilience in lagging regions of Brazil.

The proposed Project is a financial intermediary project that seeks to expand access to finance for activities that promote the bioeconomy, sustainable agricultural practices, restoration of degraded forests and pasture, and water security. The Project will be implemented by the Ministry of Integration and Regional Development (MIDR), through the 3 Regional Development Funds for the North (FDNO), the Northeast (FDNE) and the Center-West (FDCO) regions. Financial products will be channeled through participating public financial institutions, that will act as financial intermediaries in delivering subloans. MIDR will coordinate these efforts, through its 3 superintendencies, capitalizing on the banks' extensive networks to reach eligible borrowers efficiently.The Development Funds finance strategic private investments aligned with regional priorities and national development objectives, in underserved regions. The Project aims to close the persistent gap between demand for long-term credit and the limited availability of concessional financing. Targeted investments will include bioeconomy value chains, sustainable forest concessions, climate-smart agriculture, and improvements in water supply, sanitation, and irrigation systems.By doing so, the Project also seeks to enhance the economic and climate resilience of targeted beneficiaries (private sector actors, cooperatives, farmers and local entrepreneurs). The proposed project consists of two components: (1) Credit lines for FDNO, FDNE and FDCO to finance blue (WSS and irrigation) and green sectors (forest, Climate-Smart Agriculture, bioeconomy) and (2) Capacity Building and Project Management .

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
