Cambodia Regional Connectivity Improvement Project Phase 1

Quick Facts

Countries	Cambodia
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	B
Voting Date	2026-04-27
Borrower	Kingdom of Cambodia
Sectors	Industry and Trade, Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 150.00 million
Loan Amount (USD)	\$ 150.00 million
Project Cost (USD)	\$ 165.00 million

Project Description

According to bank's website, the approved project aims to improve resilient transport connectivity along selected sections of the Asian Highway 21 regional corridor and increase national logistics management capacity. Component 1: Road Corridor Improvement will focus on the improvement and maintenance of about 247 km of existing road infrastructure. The overall framework for the engineering design will follow the ASEAN Highways Class 2 standards, including 7-meter asphalt paved two traffic lanes (3.5 meters for each direction) and paved road shoulders on each side, which will enhance road safety by allocating the road shoulder for two-wheeler traffic. Design engineers will conduct detailed flood and hydrology assessments and integrate resilient and green engineering solutions for infrastructure improvement. Component 2: Institutional Strengthening in Logistics and Trade Facilitation will support institutional strengthening and capacity-building activities, including the provision of goods (ICT and equipment) and technical assistance to improve capacity in logistics, multimodal transport management, and trade facilitation. Component 3: Phase 1 Project Management and Phase 2 Preparation will provide resources for the project management, including capacity building and monitoring in fiduciary and audits, technical assistance, and environmental and social monitoring, as well as Phase 2 preparation support. Component 4: Contingent Emergency Response will provide an immediate response to an Eligible Crisis or Emergency, as needed.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
